Why Take Classes at the Center?

I believe the way our center shares education is special. Our educators are constantly innovating how they teach Science of Mind principles. They actively seek to learn new approaches to spirituality—which they pass on through our spiritual enrichment courses, classes focused on a specific spiritual topic that can enhance our understanding of Science of Mind. Helping everyone live the best life possible is our passion, and that is why we love to teach.

In addition to learning about the Science of Mind philosophy and how to apply it, being in a class is one of the best ways to enter more deeply into our spiritual community. It is a wonderful opportunity to meet and get to know people from many different backgrounds.

I often hear from our students how our classes help enrich their lives. Here is what one student recently shared:

“Having not taken a spiritual practices course at the center in several years, I was in need of a solid, foundational refresher. ‘Spiritual Principles and Practices’ fit the bill perfectly. I needed to get back into a daily practice routine, especially with regard to meditation. The course gave me exactly what I needed. As a result, I now have a daily meditation practice that I feel comfortable and consistent with. I would heartily and enthusiastically recommend this class to anyone seeking spiritual wisdom, as well as any other class at the center.”

I look forward to seeing you in class!

Much love,
Rev. Russ Legear
