Why Take Classes at the Center?

I believe the way our center shares education is special. Our educators are constantly innovating how they teach Science of Mind principles. They actively seek to learn new approaches to spirituality, which they pass on through our spiritual enrichment courses—classes focused on a specific spiritual topic that can enhance our understanding of Science of Mind. Helping everyone live the best life possible is our passion, and that is why we love to teach.

In addition to learning about the Science of Mind philosophy and how to apply it, being in a class is one of the best ways to enter more deeply into our spiritual community. It is a wonderful opportunity to meet and get to know people from many different backgrounds.

I often hear from our students how our classes help enrich their lives. Here is what one student recently shared:

“Having not taken a spiritual practices course at the center in several years, I was in need of a solid, foundational refresher. ‘Spiritual Principles and Practices’ fit the bill perfectly. I needed to get back into a daily practice routine, especially with regard to meditation. The course gave me exactly what I needed. As a result, I now have a daily meditation practice that I feel comfortable and consistent with. I would heartily and enthusiastically recommend this class to anyone seeking spiritual wisdom, as well as any other class at the center.”

I look forward to seeing you in class!

With gratitude,
Rev. Russ Legear

(S) The Aging Journey

What if it was possible aging could have some benefits? Benefits like more vitality, purpose, meaning, and freedom?

These are the ideas we'll explore in our upcoming class, *The Aging Journey*.

Together we will discover our inner wisdom that is wise, creative, and always growing.

(W) Conscious Recovery Workshop

Sunday, Jul. 19 • 1 – 4 pm

What would a Science of Mind approach to recovery from addiction look like?

Conscious Recovery is rooted in the fundamental principle that underneath all addictive behavior is an essential self that is whole and perfect. The addictive behaviors are coping strategies to manage underlying unaddressed wounds and pain that drive the addictive behaviors. The root causes can be healed through consistent inner work: unlearning negative core beliefs, shifting perceptions, and practicing forgiveness, compassion, and gratitude.

If you are in recovery, this workshop will share powerful tools to help you find your way back to your inherent wholeness.

(S) A New Take on Mysticism

Tuesdays, Jul. 28 – Aug. 18 • 10:30 am to 12 pm

Affirmative prayer is something we hear at least every week at Sunday service. It is a core practice of the Science of Mind. Often, we see it as something only done by ministers and prayer practitioners.

What if Spiritual Mind Treatment is a simple doorway to connect to the Divine Mystery? In this 4-week class we will look at SMT through the lens of various mystics: Christian, Feminist, and Modern. Then we will use this lens to craft our own treatments.

And in the final class, students will have the opportunity to craft treatments for their fellow students and discover the joy and fulfillment that comes when knowing spiritual truth for others.

(S) Zhuangzi and the Dao: Effortless Living

Tuesdays, Aug. 11 – Sept. 1 • 6 pm

Have you ever heard a story that changed the way you look at the world?

At its core, Daoism seeks to teach how we can live effortless lives. It does this by focusing on harmony and balance, and also by helping to lift the veil that can sometimes emphasize opposites like good and evil.

One way it does this is through stories. Particularly folk stories that appear in the Zhuangzi, one of the most important Daoist texts.

In this four week class, we will explore the fun and creative tales that emphasize the deep spiritual truths contained within Daoism, while also using them to build our own effortless Science of Mind spiritual practice.

(C) Ancient Wisdom and the Science of Mind

Thursdays, Aug. 6 – Sept. 3 • 6 to 8:30 pm

Counts as a History prerequisite for Practitioner studies.

Discover how the spiritual insights of the ages come alive in our daily lives. Ancient Wisdom and Science of Mind invites you to explore the timeless teachings of cultures across the world and see how beautifully they harmonize with the Science of Mind Declaration of Principles. Together we will trace the living thread of spiritual thought as it flows from the past into the present moment.

Through engaging exploration and meaningful spiritual practice, you will deepen your understanding of the Declaration of Principles and gather wisdom drawn from diverse traditions. Along the way you will develop a genuine appreciation for the evolution of spiritual thought and the many ways it continues to express itself today.

By the end of our time together, you will carry practical tools for weaving ancient wisdom into your own experience and into your ongoing Science of Mind practice. Come join us for a journey that honors where we have been and illuminates where we are going.

(W) The Magic of To-Do Lists

Sunday, Aug. 16 • 1 to 3 pm

How we think about our world directly affects our experience. Ernest Holmes and other teachers point to the importance of freedom of choice, based upon our values and what matters to us. To-do lists can be a fun and effective way of changing the way we interact with the world.

In this workshop, you'll explore to-do lists from many angles:

- **Everyday Life:** Learn ways to manage time rather than letting it manage you
- **Spirituality:** Recognizing and trusting your core values, and through to-do lists, letting them guide you as your compass
- **Freedom:** Use to-do lists to help you do what you want without abandoning the commitments that are meaningful to you
- **Awareness:** Notice the power and magic of seeing things differently

Join Rev. Tara to turn your to-do lists into a spiritual practice that can uplift your life.

Here are the topics for each session:

- What brings you here?
- It's okay to want things, people, experiences

(S) What Do You Want to Experience?

Fridays, Sept. 4 – 25 • 11:30 am to 1 pm

“Don’t ask for what the world needs. Ask what makes you come alive, and go do it. Because what the world needs is people who have come alive.”

- Howard Thurman

I believe we are all here on purpose. I believe we are equipped to answer the call from Spirit, as spiritual beings having a human experience. Many times, we have been asked “What do you want?” My question is a bit different.

Rev. Michael Beckwith has spoken of the desires of the heart and when we feel it, welling up inside, it is God’s way of saying, *it’s time to manifest this desire.*

Are you willing to come fully alive with the potential in you? Are you ready to experience the power and presence of God *as you*? Join me to let your mystical intuitive nature guide and inform you every step of the way, and together we will answer this question by saying out loud, “What I want to experience is...” You get to choose!

(W) Your Word Is Your Wand: The Power of Spoken

Affirmation

Sunday, Sept. 27 • 1 to 3 pm

Words carry power. Florence Scovel Shinn taught this in 1928, and the idea remains alive today: what we speak, we tend to create. This 90-minute workshop draws on Shinn's classic text to explore affirmations as a living practice. Shinn believed that a person holds the power to change an unhappy condition by waving over it the wand of spoken words, and this class puts that idea directly in your hands.

You will work with affirmations the way a mantra works, through repetition, rhythm, and presence. Shinn described supply as released through faith and the spoken word, and we will explore what it feels like to speak with that kind of conviction. The session includes reflection on why enthusiasm matters, how to work with an affirmation until it feels true, and what shifts when you bring genuine feeling to the words you repeat.

Whether you are new to affirmations or deepening an existing practice, this workshop offers a framework, an experience, and a collection of affirmations you can take home and use.

(S) Enneagram: Where Psychology Meets Spirituality

Wednesdays, Sept. 30 – Oct 21 • 10:30 am to 12 pm

The Enneagram is a powerful spiritual tool that helps reveal what's beneath our habits, reactions, and deepest desires. Far from putting you in a box, it shows you the box you've been living in... and how to get out.

In this course, we'll explore the nine core patterns of thought, emotion, and behavior that shape how we show up in the world. Each Type reflects a belief about what we think we need to feel safe, loved, and whole. But the real magic lies in what the Enneagram reveals about how we can grow by reconnecting with Spirit, with ourselves, and with one another.

Whether you're new to the Enneagram or already a fan, this class offers fresh insights and practical tools that will lead you on your path toward deeper freedom and connection.

Come discover the pattern that's been living you.

Whether you identify as an introvert or want to better understand the introverts in your life, this course will empower you to embrace and leverage the quieter side of personality.

(S) Living the Prayer of Saint Francis

Tuesdays, Oct. 6 – 27 • 6 to 7:30 pm

The Prayer of Saint Francis in just a few lines, maps a complete spiritual life, moving from hatred to love, doubt to faith, despair to hope, and sadness to joy.

This four-week course explores that journey. Drawing on the prayer line by line, and guided by Kent Nerburn's companion book, each session opens a theme for reflection: peace, forgiveness, consolation, understanding, and the practice of love as a way of living.

Affirmative prayer, the spiritual principles of Ernest Holmes, wisdom from the Bhagavad-Gita, and the teachings of Jesus weave through the course, alongside personal reflection and group conversation. This course invites you to consider what it means to be an instrument, and what changes when you stop seeking consolation and begin offering it.

(W) Radical Journaling

Sunday, Oct. 11 • 1 to 3 pm

The mind is a fascinating device. In many ways, our outer world is a reflection of what is going on within. By taking the time to clean out our mind, just as we would clean our home, we can create space to allow more joy, inspiration, and creativity into our lives.

One way we can do this is through the practice of journaling—but have you ever heard of *radical* journaling? In this workshop focused on a unique and fun form of journaling, you will learn how to let the floodgates of your mind open to find freedom from repetitive, anxious thoughts that can often clutter up your mind.

Scholarships

Spiritual education is the cornerstone of what we offer here at the center, and we want to make it as easy as possible for you to learn the fundamental principles that make up our Science of Mind teaching.

Scholarships are available for all core classes to help offset the registration cost. Scholarships are typically approved for those who require financial assistance due to life circumstances and are approved on a case-by-case basis. You can apply for a scholarship by visiting cslsr.org/scholarships.

Note that all information entered on the scholarship application is kept confidential.

“The Divine Plan is one of Freedom; bondage is not God-ordained. Freedom is the birthright of every living soul. All instinctively feel this. The Truth points to freedom, under Law. Thus the inherent nature of humanity is forever seeking to express itself in terms of freedom. We do well to listen to this Inner Voice, for it tells us of a life wonderful in its scope; of a love beyond our fondest dreams; of a freedom which the soul craves.”
